

Tree Roo Rescue and Conservation Centre Ltd

We are a non-profit organisation that rescues and rehabilitates, orphaned, injured or displaced tree kangaroos.

Unfortunately an increasing number of Lumholtz tree kangaroos are being killed by dogs and hit by cars each year.

Please donate to us and the money will go directly towards treating and caring for these beautiful animals.

16 years of caring for injured tree kangaroos

Caring for Kuranda's Environment

"by standing on the shoulders of those who've gone before"

Nursery: 284 Myola Rd, Mon & Thu 9am-1pm, Sat 10-noon, ph: 4093 8989 / 4093 8393

Having Fun with Fungi

Have your eyes opened through fabulous fungi fun – an early morning walk and a night time talk with photos by FunGAL Sapphire (see date claimers below). Fungi are Australia's second largest kingdom yet they rarely rate a mention, despite their importance to biodiversity and as the networkers of ecosystems. Each of the ecological roles fungi play will be described, highlighting some amazing, if a little weird, ecology. By introducing some of the local fungi and their importance in conservation and land restoration people will quickly see the importance of our fungi.

We're pleased to have Sapphire McMillan Fischer visiting us from down south. Sapphire lived here for a year or so and started her PhD studies on fungi in north Queensland as little work has been done on fungi here and there are many unnamed fungi just waiting to be discovered (I guess they know who they are though – discovered or not).

Plant of the Month

Stenocarpus sinuatus (Firewheel Tree)

The Wheel of Fire is a very attractive tree that has unusual but spectacular red flowers which are show-cased amid the beautiful deep glossy green foliage. While slow to reach maturity the magnificent sight of the red flowers among the foliage is well worth the wait.

It occurs naturally in moist rainforest gullies from the Bellinger River, North NSW, to the Daintree in Queensland. In the rainforest it is a tall slender tree that can grow to 20 metres. In an open sunny garden it grows to about 6 to 10 metres with canopy spread of 2-3 metres. We have a few left in the nursery.

Date Claimers

Lots on this month

Saturday 31 January & 28 February: Community Tree Planting, Aiming for 500 a session @ Mantaka site 7:30. Bring a hat, gloves and water bottle. No digging required. Meet at Russett Park underpass on Hickory Road 7.30am.

Sunday 1 February: Fungi Walk & Talk with FunGal Sapphire, 7:30am.
