

Tree Roo Rescue and Conservation Centre Ltd

We are a non-profit organisation that rescues and rehabilitates, orphaned, injured or displaced tree kangaroos.

Unfortunately an increasing number of Lumholtz tree kangaroos are being killed by dogs and hit by cars each year.

Please donate to us and the money will go directly towards treating and caring for these beautiful animals.

16 years of caring for injured tree kangaroos

Frog Call Identification Workshop

Would you like to learn how to identify local rainforest frogs?

On Saturday April 23 we will be hosting a workshop focusing on their calls and appearance. The workshop will consist of an indoor session at the rec centre which will be followed by a trip to Warril Creek to see if we can find some frogs in the wild. We have several rare and endangered frogs living here in the Kuranda region. The *Litoria myola* (Kuranda's Tree Frog) is endemic to this area and is on the threatened species list.

Rainforest Frogs are sensitive, therefore great, indicators of the health of our local streams in which they breed.

To bring awareness to our community of the health of our ecosystems and to monitor threats to these systems, we have a long term frog-monitoring project in progress, funded by the international Mohammed bin Zayed Foundation. We also received a community grant for a two year project focusing on Jum Rum Creek revegetation and community awareness

L. myola, difficult to distinguish by sight from *L.germaculata* but the call is distinctive

which was completed last year.

We recently installed signs at some of the local creeks to remind locals, visitors and council staff that frogs need healthy waterways and thriving native vegetation for their survival.

WORKSHOP INFO

Where: Kuranda Recreation Centre, Fallon Road, Kids Welcome

When: Sat. 23rd April 4.00-7:30 pm

What: Bring a head torch and covered shoes

Booking: via Sylvia 0409 647 714 or info@envirocare.org.au

Garden Species Abundant

We have a wide variety of native garden species on our "pretties" bench 18, available at our nursery on Myola Road. They range in size from ground cover eg miniature Hibiscus, grasses, lilies such as Cardwell, shrubs through small to large trees.

One of our favourites is the beautiful *Atractocarpus fitzalanii* – Photo below left– (Brown or native Gardenia), which has an exquisite white fragrant star shape flower and a tennis ball size fruit that our Cassowaries love. Growing to 10 m in rainforest. typically 4- 6m in the garden, great tree for screening.

Another beauty is *Phyllanthus cuscutiflora* – Photo below right –(Pink phyllanthus). From the moist lowland rainforests, growing alongside streams, hardy shrub (3-4m). The dense habit, impressive flushes of new growth and pendant flowers that cover almost every inch of the plant make this plant a desirable garden specimen. Fast growing, popular for providing privacy with low branching, its semi-weeping foliage adds to the density of the screening. New pinkish to orange-red growth flushes seasonally and after pruning.

Date Claimers

- Thursday 7 April, 7.00pm @ KRC Fallon Road. Guest Speaker Ingrid Marker – Proposal for "Domesticated Predatory Animals" Act. Ingrid will tell her story of cassowaries and dog harassment followed by her presentation on tighter controls on dog and cat ownership to support responsible pet owners and close loopholes on controls. All welcome. Supper provided
- Saturday 23 April, Rainforest Frog Identification Course FREE, 4.00pm at Kuranda Recreation Centre Fallon Road – Pizza dinner at 6.00pm \$5 then field trip 6.30 till 7.30pm
- Yellow Crazy Ant – Lure Monitoring – every 2nd Thursday, Bait Treatment in April ring Mikhaila 0400 018 332
- EVERY Sat – Tree Planting 7:30 am
- Frog Monitoring dates in the 3rd week of every month. facebook search Kurandas-Frog-Friendly-Neighborhood or www.envirocare.org.au
